# neatly executed. Terms, cash on delivery of the A Comax Expedition.

What is the reason our exertions for the purpose of inducing people to settle down upon our agricultural lands have been allowed to subside? Any one walking along Yates street yesterday afternoon, could not but regret seeing a number of fine able-bodied men preparing to leave the country. Among them no doubt were many who could have been induced to make this country their home if they could see their way clearly to some certainty, to some means of making a good living. Victorians have been lax in their efforts to retain bopulation. They have been contented with doing too little. Any one who has resided here any length of time is firmly convinced that we have a large share of everything requisite to make 1 great country. That the mineral vegetable and animal kingdoms yield their stores most bountifully to those who seek them. All that is wanted is a little patience them. All that is wanted is a little patience and persevering exertion in almost any walk to lead to independence. Now it should be the duty of every man who has the good of this country at heart to exert himself and point out to new-comers the many modes by which men may be sure to succeed in this country. It is not very long since we had an expedition for the purpose of settling the plains to the north of this. Those who had the chief lead in that undertaking seem to have been conteuted with a temporary crown of laurels. The effort was exhausted. The tree was planted, and it temporary crown of laurels. The effort was exhausted. The tree was planted, and it may grow or not just as it lists. That is not the way to do business. It is only by long and continuous exertien that any thing substantial can be accomplished, no matter what may be the object sought to be attained. And this continuity can only be attained by system. We would therefore suggest that other expeditions be inaugurated—be continued; that men should be induced to put down their names, and that the Governput down their names, and that the Govern-ment should afford every facility, by giving intending settlers a free passage to their desti-nation. It has been said that some of the men were scattered rather too much in Cowichan. were scattered rather too much in Cowiedan. We are not aware that this is the case; but surely there is no necessity for it, especially in the Comax country, where thousands of acres of the fiest land in the world are to be had, allowing men to be located quite close to one another. There are hundreds of men around town, who will not likely do much of any conceasing during the winter who might at far. sequence during the winter, who might at far-less expense spend the season by ranching in the Comax country; taking with them tools, books, a supply of ammunition, and not a great quantity of provisions, for there is game enough up there to enable them to live in the best of style. They could fence their farms, and he ready to put in at least a small corp in best of style. I hey could felled their farms, and be ready to put in at least a small crop in the spring. No doubt the Government will be induced to give employment to a number up there on some work of public utility, such as roads, &c. We hope the matter will not be allowed to be shelved, without further efforts. That would be unfair toward those who have lately settled there. lately settled there.

#### Arrivals.

A small fleet of large vessels arrived yesterday. First, at 8 o'clock, a. m., came the steamship Pacific, with 40 odd passengers and a fine freight, a goodly portion of the latter Oregon produce and fruit.....Next the English bark Somas, Norton master, anchored outside. She brought 40 passengers and 600 tons of goods, consigned to Stamp & Co. Ten of the passengers are females (bless 'em'). The Somas sailed from London on the 31st day of January last, and called in the state of the passengers are sensitive. charge cargo at seven o'clock this morning change cargo at seven octock this morning. The Hall left San Francisco on the 7th of August and has been 27 days on the passage—a fair trip, considering that she has had scarcely any wind the whole voyage. Hardly had the Hall dropped anchor when the brig W. D. Rice, also from San Francisco, came around Shoal Point and sai'nd to the Hulson Ray Company's wharf. The co, came around Shoal Point and sal'ed to the Hudson Bay Company's wharf. The Rice left the Bay on the same day as the Hall, was in company with her most of the trip and was detained from a like cause—no wind. She comes to Pickett & Co., and has about 300 tons of general merchandise abourd, which the stevedores will commence to spread upon the Hudson Bay Co.'s wharf this morning.

AN UNMITIGATED HOAX .- The report circulated yesterday through town, and posted on the bulletin of our cotemporary, announcing the resignation of Lord Palmerston, and the break-up of the English Ministry ston, and the oreas-up of the English Ministry on the American question, was a hoax; no such intelligence having been received here. The same report was circulated about town on Tuesday evening, twelve hours previous to the arrival of the mail, and the party who communicated the same to us said that Government had received "official dispatches" by the Shubrick, announcing the important event the Shubrick, announcing the important event. The narrator did not stop to consider that telegraphic dispatches travel much faster than official documents, and that, had the change taken place, we should have heard of it by lightning weeks in advance of the official document reaching our Government. Yester-day it was asserted that the Attorney General had received official intimation of the retirement of Palmerston, and the succession of Derby to the Premiership; but upon being interrogated, that official declared that the only intimation he had received on the subject was written on the back of a card by a gen-tleman of this city, who said that he was told so on, the arrival of the steamer yesterday morning, by a firiend who has not been outside of the city limits of Victoria for six months past, "Government has received no dispatches on the subject," said the Attorney General.

McDowell and Sigel .- The brief telegam which states that Gen. McDowell of the Northern army has been shot by Gen. Sigel of the same army, for a cause not stated, is generally discredited; the dubious source from whence discredited; the dubious source from whence the information was obtained—the secession city of Baltimore—being considered sufficient to stamp it as untrue in the opinion of many. Various causes are ascribed for the alleged shooting—one of which it is said is that McDowell endeavored to steal Sigel's laurels, acquired by him at the battle of War-vorter. Another, authority has it that McDowell laurels, acquired by him at the battle of War-renton. Another authority has it that Me-Dowell was detected in treachery. This is all mere conjecture, however, as there may be no foundation in fact for the telegram. McDowell was commander of the Union forces at the disastrous battle of Bull Run, since which time he has occupied a position in the army subordinate to McClellan. Sigel is a German, who won distinction in Germany in 1848, and also in the States of Missouri and Arkansas in 1861-62. He was lately transferred to the army of Virginia, and placed in command of a corps under Pope. It is related of Sigel, when commander of an insurrectionary army in Baden, one of the German States, that shot an inferior officer dead for a disobe dience of orders which led to the defeat of his

GOT HIMSELF IN A BAD SCRAPE. - John Ibbotson, fur dresser of Humboldt street, cooked a pretty kettle of fish for himself in the Police Court yesterday morning. He was brought before the magistrate on a charge of cutting an Indian with an ax. He acknowledged the assault, but pleaded in extenuation that the native was drunk and endeavored to make a meal from one of his legs, and that he struck to save himself from being bitten. The magistrate fined John to the full extent of the law— £5, and as he came forward to the desk to pay that amount, he remarked "Five pounds ch! well I'm only sorry I didn't get my money's worth; but I'll bave it out of him when I get this settled." Sergeant Blake was immediately placed in the box, and having testified to the threatening language used by Ibbotson. was contended to fourteen days'

AN OLD ACQUAINTANCE.-The bark Somas is an old acquaintance under an alias. She is the old Gomelza, which ran ashore near one of the mills on the Sound, and afterwards got off and was towed to this port where she was sold to her present owners for a mere song. ## Getting Married.

Every young girl now-a-days expects to get a rich husband, and, therefore, rich men ought to be abundant. In the country we admit that young girls are sometimes brought up with an idea of work, and with a suspicion that each may chance to wed a sother strategy conditionally given by the strategy conditions. ber, stendy, good-looking, industrious young man, who will be compelled to earn by so-vero labor the subsistence of himself and family. There are not so many brought up with such ideas now, even in the country, as there used to be; but there are some, and they consequently learn how to become imprisonment for contempt of Court. Pour worthy helpmates to such worthy partners. John! we hope he'll never hallo again till he's out of the woods.

But in the city it is different. From the highest to the lowest class in life the prevailing idea with all is, that marriage is to lift them at once above all necessity for exertion; and even the servant girl dresses and reasons as if she entertained a romantic confidence in her Cinderella-like destiny of fidence in her Cinderella-like destiny of marrying a prince, or, at least, of being fallen in love with and married by some wealthy gentleman, if not by some nobleman in disguise.

This is why so many young men fear to marry. The young women they meet are all as imbued with notions of marriage so ut-

so imbued with notions of marriage so utterly incompatible with the ordinary rela-tions of life in their station; they are so wholly inexperienced in the economy of the wholly inexpendiced in the economy of the household; they have been taught, or have taught themselves such a "noble disdain" for all family industry; they have acquired such lady-like ease and elogance in the hymeneal connection, that to wed any one of them is to secure a life-long lease of domestic unhappiness and purchase wretchedness.

them is to secure a fite-long lease of domes-tic unhappiness, and purchase wretchedness, poverty and despair.

All this is wrong, and should be amended. Such fallacies do not become a sensible age nor a sensible people. Our grandfathers and mothers had more wisdom than this. The present age is entirely the feet a me, in this present age is entirely too fast a one in this respect. Let us sober it down a little. Let respect. Let us sober it down a little. Let every young woman be taught ideas of life and expectations of marriage suitable to her condition, and she will not be so frequently disappointed. Should she be fortuned. disappointed. Should she be fortunate and usappointed. Should she be lortunate and wed above that condition, she may readily learn the new duties becoming to it, and will not have been injured by having possessed herself of those fitting a station below. Let her anticipate a marriage with one in the humbler walks of life, and then, should she

happen to do better, her good fortune will only be the more delightful.

FIGHTING ON THE RAPPAHANNOCK! GEN. McDOWELL SHOT BY GEN. SIGEL.

The U. S. Mail Steamer Pacific arrived at Esquimalt this morning at half-past 8 o'clock, bringing 2 days later dates. The news is important:

New York, August 27.—The Tribure's correspondent says that in the rebel attack on Cattle's Station, \$4,000 belonging to the Quar-termaster's Department was taken. A captain in Burnell's legion, lying hid in a house near the railroad track, heard Gen. Stewart give the railroad track, heard Gen. Stewart give positive orders to spare McDowell's baggage train, but seize Pope's and destroy whatever was not of public importance. The order was

A contraband who came in yesterday reports that our troops were whipping the rebels, and that we had captured 13 gans. A cavalry licutenant came in last night, who confirms the report, and says that 16 gans were captured. He also says that when Stonewall Jackson's forces reached Bennett's Ford, 18 or 20 miles from here part of McDowell's forces were on from here, part of McDowell's forces were on the south bank of the river. They secreted themselves under cover of the woods, when Jackson's forces passed them and attempted to Pord the river. While making this attempt Pope's troops opened a destructive fire, and at the same time McDowell's men threw them-Lives in their rear, thus bringing them between two fires. An officer says of this portion of Jackson's forces that he could not say tion of Jackson's forces that he could not say how many were annihilated, but that the river was red with rebel blood. This story is given for what it is worth. It is believed in Fred-ericksburg. It is also believed that fighting is still going on.

The report that Fort Donelson was abandoned seems to have been premature. A despatch from the operator [telegraphic] at Paducah, says that Fort Donnelson was attacked by 700 rebels yesterday, and that after an engagement of an hour they were repulsed with the loss of 30 killed and wounded. The Federal loss was 2 wounded.

recent orders.

Rebel Marylanders in large numbers have crossed into Virginia.

PHILADELIHIA, August 25.—The Bulletin has information from a gentleman who left the Rappahannock yesterday morning, that our troops had frequent skirmishes with the rebels, while falling back from the Rapidan. The losses are not serious. Gen. Popt holds the railroad bridges. We hold two com-manding positions opposite the Rappahan-nock which the rebels assailed several times ook which the rebels assailed several times. Our troops who are distributed along the river resisted all the assaults. They will be able to maintain their position at the Junction fill the other army corps enable them to assume the offensive. The rebels are endeavoring to turn our right at its rear by way of Warrenton.

New York, August 25 .- The rebels at-NEW YORK, August 25.—The rebels attempted to cross the Rappahannock on the night of the 21st. Three rebel regiments rushed across a temporary bridge, and no sooner had they crossed than Sigel's battery opened upon the bridge, and the fourth shot completely demolished it, at the same time a deadly fixe of mystery assailed the rebels. a deadly fire of muskerry assailed the rebels in front. Their retreat was cut off, and nearly 2000 are said to have been captured. About 460 were killed and wounded. The enemy having failed in this, strove to out-flank Sigel by crossing at French Ford, but reinforcements were ordered up and the enemy were repulsed.

The Federal force was only 4 companies.
A despatch from Lexington says that there

Cassius M. Clay was sent to-day with his brigade. Gen. Nelson also takes the field. The Kentucky negro brigade to repair bridges will leave to morrow. A despatch from Frankfort says that Gen.

The enemy expect to starve Gen. Morgan out, but no fears of this are entertained, as he has 30 days' forage ann provisions. LATER.

The Italian moderate journals condemn the course of Garibaldi. It is generally be-lieved that the 25th August is fixed for his demonstration, throughout Italy, against Francis II.

LATER FROM CHINA.-Passengers by the brig Ida D. Rogers, which arrived in port latlely from Shanghae, via Hakodadi, Japan, brings information that the steam-tug Union Star (of San Francisco) Captain Belcher, burst her boiler at Shanghae, on the 1st of June last, whereby nearly lifty persons were killed. This is the third California steamer destroyed within a few months—the Santa

Cruz, Cortes, and lastly the Union Star.

The trade on the Yang-tse-kang was in a most flourishing condition. The steamer John T. Wright, from this port, had arrived

at Shanghae. From Japan we learn that one-third of the inhabitants of Osaca, in that Empire, had died of cholera during the past year—more people, it is estimated, than the population of New York city.—S. F. Ex.

PLENTY -In the midst of the gloom of our national troubles, a kind Providence has youchsafed to us an abundance of all the necessaries of life. From all the loyal States comes news of the most abundant crops. The wheat crop has been safely harvested, and was never better, take the country through. Corn is premising finely; and of fruits there never was a better prospect. Prices are reasonable—not too low for the Prices are reasonable—not too low for the producer, nor too high for the consumer. What great reason we have for thankfulness for all th's. While those who brought this war upon this country for the purpose of overthrowing and destroying the Government, are compelled to pay the exorbitant prices for the actual necessaries of life, and in mean cases are stiffing for want of food in many cases are suffering for want of food, while their country is desolated and the business of their towns and cities destroyed, we, who are ladoring and fighting for the maintenance of our Government, are blessed maintenance of our Government, are biessed with the greatest abundance of everything—our fields are richly laden with bounteons crops, and the business of our towns and cities scircely feels, as yet, any inconvenience from the war.—Am. Mr. Anderson moved the adoption of a resolution to the effect that the Secretary is hereby instructed to prepare a petition to the Legislature praying for a grant of £250, to be placed at the disposal of this Society, to be used for the advancement of Agriculture. RT DR. HOSTETTER'S STOMACH BITTERS should be in the possesion of everybody in the min-ing region. As a preventive of various dangerous diseases to which the gold secker is liable, it has no superior. While it is quite palatable even as a beverage, it is speedy and powerful in its effects upon the system. In all cases of Diarrhea, Dysentery and the pervading fevers consequent upon exposure, the Bitters will be found invaluable as a corrective. No man should enter upon the exposed camp life of a miner without being provided with Hostetter's preventive of stomach disease, nor should any of those who are now engaged in the occupation, fail to have recourse to the Bitters.
